Integrity - Service - Excellence

Continuity of Operations

Carolyn Lee
Chief, Contracting Business
Systems

Decision Brief

3 June 2004

U.S. AIR FORCE

Agenda

- Background
- Requirement
- Levels
- Way Ahead discussion

U.S. AIR FORCE

Background

- New world environment
 - It can happen TO you
 - You need to support someone else
- Manmade disasters/interference
 - Catastrophic destruction
 - Chem/bio threats
 - Situational relocation
- Natural disasters
 - Hurricanes
 - Tornadoes
 - Floods

U.S. AIR FORCE

Requirement

- SSAA Requirement

- For SPS, App E: Information System Security Policy and CONOPS Part 3, Technical Administration
- CONWRITE/ACPS?

U.S. AIR FORCE

Two Levels of COOP

■ Installation COOP

- NOSC/NCC contingency plan for base operations
- Relocation site: entire base, functional separation, everyone?
- Movement of hardware/software/databases/forms/materials
- Disaster Prep exercises—realistic?

■ Contracting only

- Relocation site: compatibility, time, training
- Movement of hardware/software/databases/forms/material
- Who do you take?
- Where are your customers?
- How will you interface with finance, vendors, logistics, etc?

Hope is not a method

U.S. AIR FORCE

Approach: Contracting

- Possible options/issues:
 - Sister sites
 - Distance: too close, too far
 - Surge capability
 - Hardware/comm capacity
 - AFCIS backup
 - Distance
 - Comm capacity
 - Coordination
 - Surge capacity (more than one site failure)
- Review Checklist/discussion
